Tondo, Manila

2022

WORK EXPERIENCE

TDT Powersteel Corp.

Full Stack Developer Intern

Sampaloc, Manila

Nov 2025 - May 2026

- Developed and maintained full-stack web applications using React, Node.js, Tailwind CSS, and Supabase.
- Built administrative dashboards and internal business tools with real-time data integration and responsive user interfaces.
- Implemented REST APIs, secure authentication, automated PDF/CSV report generation, and collaborated with the team to develop new features.

PROJECTS

FloodPath (Capstone Project)

2025

- Developed an AR- and predictive analytics-based early warning system for flood monitoring along the Marikina River using Flutter, React, Unity, and Firebase.
- Built mobile and web applications featuring real-time flood forecasting, AR flood visualization, and evacuation route guidance.

Power Allure (Intern Project)

2025

- Developed a full-stack web platform featuring dynamic profiles, centralized data management, and streamlined user workflows.
- Implemented an administrative dashboard with secure authentication, account management, and system-wide controls.

Warehouse Inventory System (Intern Project)

2026

- Developed backend services and RESTful APIs for warehouse inventory management, including product, stock, and transaction handling.
- Implemented database operations and business logic for inventory tracking, stock updates, and data retrieval.

ACTIVITIES

GOOGLE DEVELOPER STUDENT CLUB (GDSC)

Member

National University

Aug 2024 – Sept 2025

- Participated in technical workshops, coding sessions, and developer community events.
